SHING TAK LAM

Mathematics Institute, University of Warwick
stl45@cantab.ac.uk (Permanent) Shing-Tak.Lam@warwick.ac.uk (Warwick)

RESEARCH INTERESTS

Canonical metrics in Kähler geometry, gauge theory, geometric flows, moment maps, stability conditions and moduli theory.

EDUCATION

University of Warwick *2025–28*
Doctor of Philosphy (in progress)
PhD in Complex Differential Geometry supervised by Ruadhaí Dervan.

University of Glasgow *2024–25*
First year of PhD in Complex Differential Geometry supervised by Ruadhaí Dervan.
Aligned student on the Algebra, Geometry and Quantum Fields CDT.

University of Cambridge *2023–24*
Master of Mathematics *Distinction*
Part III essay titled "Quantum cohomology and the Seidel representation" supervised by Jack Smith.

University of Cambridge *2020–23*
Bachelor of Arts *First class honours*

PREPRINTS

Semistability and asymptotics of geometric flows, Submitted arXiv:2606.09235
Canonical metrics on families of vector bundles, Submitted arXiv:2512.04017

ORGANISATION

CALF *2026-27*
Junior Algebraic Geometry Seminar, Warwick *2026-27*
Reading group on *Geometric Invariant Theory* *Autumn 2024*

CONFERENCE TALKS

New and old in complex geometry, Warwick *Apr 2027*
Fibrations and Deformations, Brest *Jun 2025*

SEMINAR TALKS

Geometry, Analysis and Mathematical Physics Seminar, York *Nov 2026*
Centre of Quantum Mathematics Research Seminar, Syddansk Universitet *Nov 2026*
KASS Seminar, Chalmers/Gothenburg *Nov 2026*
Geometry and Mathematical Physics Seminar, Loughborough *Oct 2026*
Geometry and Geometric Analysis Seminar, Purdue (online) *Oct 2026*

JUNIOR SEMINAR TALKS

Junior Geometry Seminar, Oxford *Jan 2027*
Junior Analysis and Probability Seminar, Warwick *Jun 2026*
Hodge Club, Edinburgh *Apr 2026*
Postgraduate Seminar, Warwick *Nov 2025*
Junior Algebraic Geometry Seminar, Warwick *May 2025*

OTHER TALKS

Reading group on *Non-abelian Hodge correspondence* *Jun 2026*
Reading group on *K-stability of Fano varieties* *Jun 2025, Jun 2026*
Reading group on *Gauge theoretic invariants* *Oct, Nov 2025*
Reading group on *Moduli of weighted hyperplane arrangements* *Nov 2025*
Glasgow Geometry and Topology Pre-Seminar *Mar 2025*
Reading group on *Positivity in Algebraic Geometry* *Feb 2025*
Reading group on *Algebraic Stacks* *Feb 2025*
Reading group on *Geometric Invariant Theory* *Dec 2024*

TEACHING

MA3F1 Introduction to Topology Support Classes and Marking *Term 1 2026-27*
MA453 Lie Algebras Support Classes *Term 2 2025-26*
MA259 Multivariable Calculus Marking *Term 2 2025-26*

EXPERIENCE

Summer research internship, University of Cambridge Summer 2023
Summer project supervised by Alexei Kovalev, studying hyperkähler metrics on coadjoint orbits.
Summer research internship, University of Cambridge Summer 2022
Summer project supervised by Anders Hansen, studying (non-)computability of optimisation problems.

PRIZES AND SCHOLARSHIPS

Clemmow/B Talbot Prize, K Roth Prize *2023*
Awarded for highest first in Part II Mathematics at Peterhouse
Senior Burkhill Prize for Mathematics, Routh prize for Mathematics *2022*
Awarded for highest first in Part IB Mathematics at Peterhouse
Summer Reseach Bursary *2022, 2023*
Funding from the Faculty of Mathematics for summer research projects.
Scholarship in Mathematics *2021-24*
Scholar of Peterhouse, University of Cambridge
College prize *2021, 2022, 2023, 2024*
College prize for academic achievement

CONFERENCES ATTENDED

Trends in Differential and Complex Geometry, Oxford *Sep 2026*
Degenerations in Complex Geometry, Institut Mittag-Leffler *Jun-Jul 2026*
CALF, Nottingham *Jun 2026*
Complex Geometry in Bordeaux, Bordeaux *May 2026*
Living on the edge of the moduli space, Aarhus *May 2026*
CALF, Imperial College London *Mar 2026*
Brussels-London Geometry Seminar, Brussels *Jan 2026*
Integrable Day 2025, Loughborough *Nov 2025*
COW, Warwick *Nov 2025*
VII BrAG Meeting, Nottingham *Sep 2025*
Singular canonical Kähler metrics on compact and non-compact manifolds, Budapest *Sep 2025*
Summer Research Institute in Algebraic Geometry, Colorado *Jul 2025*
Fibrations and Deformations, Brest *Jun 2025*
Winter School on K-stability, CIRM, Luminy *Mar 2025*

UKAG Network Winter School, Lancaster *Dec 2024*
GLEN, Glasgow *Dec 2024*

SKILLS

Programming Languages
Haskell, Python, Julia, Mathematica, Rust
Languages
Native: English, Cantonese, Mandarin
Basic: French, Spanish

Last updated: November 2, 2026
